SCHOOL AIM

“To provide a Christian environment in which young people are safe, secure, cared for and happy, and are able to develop into articulate, confident and well qualified citizens of the world.”

Science In Action

Science is certainly a strength of the Trinity curriculum, and students of this very important “core” subject have recently been involved in a sustainable village project and a science fair, as the above photographs show. Developing a science based career also involves a study of one or more of the GCE advanced level science subjects; biology, chemistry and physics. These subjects will be strongly represented in our Sixth Form as our first Year 12 students embark on their advanced level courses in September, 2016. Earlier this week, Head of Sixth Form, Ms Tattum met with all our prospective Sixth Formers to make them aware of the forthcoming post 16 opportunities at Trinity.

A New Term - A New Start

But with the same simple and easily understandable advice for guaranteed success at Trinity; be here, on time, wear the uniform smartly, work hard and behave well. Plus, of course, the words reported in Matthew Chapter 22 verses 37-40. As our Year 11s begin the final weeks of their compulsory education before embarking on post 16 courses, they need to work to maximum capacity and to do nothing to jeopardise their chances of success. Remember that the most precious resource in the world is time, because once it is lost it can never be regained. Good luck to all our students as we embark on the challenges and opportunities of the third and final term of the school year.

Success At Ghyll Head

We have just been informed that our Year 10 team have once again won the inter-school Ghyll Head Challenge held at Windermere in Cumbria. Tasks involved an evening navigation exercise, reaching a mountain summit and team problem solving over two days. Well done to everyone involved and we will shortly be presented with the trophy.

Our commitment to the great outdoors continued last week with a D of E Bronze expedition in the Peak District. Very soon, the D of E Silver participants will be having a slightly more arduous trek. Next year, of course, our Sixth Form students will be able to study for the D of E Gold Award.

Smartly Attired And Happy At School

Children who feel safe, secure, valued and happy are able to concentrate fully on their studies; those who concentrate fully on their studies can achieve success; and successful students create successful schools - such as Trinity Church of England High School. One of our principal intentions is to create the pre-conditions within which successful education can take place.

Year 7 Parents' Evening

An extremely successful event, attended by 89% of parents. We hope that our Year 7s have settled fully into life at Trinity and that they are happy with their friendships and successful in their work.

Book Fair

From Mr Richardson: "We will be having a Scholastic Book Fair in school next week. A superb selection of books, posters and stationery will be on sale every day in the LRB at lunchtimes and after school."

And Finally.....

.....from Mr Richardson: "As part of the Greater Manchester in Film Festival, a group of Y10 business students, along with members of Film Club, attended a screening of 'Boom Bust Boom' at Z-Arts. The unconventional and often funny documentary examines the causes of the 2008 banking crash, identifying some issues with the study of economics along the way. The film's directors were on hand to take questions at the end, and our students clearly got a lot out of the experience. They came away of the mind that if changes need to be made in this field, they might well be the people to make them."
