VOLUME 34, No 29

SCHOOL AIM

“To provide a Christian environment in which young people are safe, secure, cared for and happy, and are able to develop into articulate, confident and well qualified citizens of the world.”

KS3 Geography

Teacher of Geography, Mr Clark, was very impressed with the models one of his Year 8 classes recently created. Students from 8STR have been studying the features of erosion on the coasts, looking at caves, arches, stacks and stumps. Students were asked to create a model at home on the theme of erosion, with explanations. The models could be made in any medium, including cake! Head of Geography, Mr Stockley, added, "This is the culmination of hard work in Year 8 Geography that entails learning some very scientific geomorphology of the Earth's surface. Our Year 8s studied rivers at the start of the year and are about to study glaciation in the next topic. Well done to all students who have made models!"

Afternoon Tea in the Sixth Form

From Head of Sixth Form, Ms Tattum:

“On Wednesday 18th April, the Associate House Leaders, Glen Cheeran, Elizabeth Presswood, Ore Yakubu and Rose Hashemi, arranged a visit from the members of the Caribbean Day Centre in Hulme to the Trinity Sixth Form for afternoon tea. Around 15 elderly people came to visit and thoroughly enjoyed the hospitality of our students. During their time here they had cakes and sandwiches, as well as taking part in a fun quiz and having a chance to chat to the students. An array of entertainment, dancing and performing was provided by Trinity students. The Year 13 Health and Social Care students spent time interacting with the visitors allowing them to practise the essential skills learnt on their course. The event was enjoyed by all and one visitor actually said that she didn't want to leave!”

KS3 Engineering

From Teacher of Design Technology, Ms James: “Ms Taylor, Head of Design Technology and Engineering at the National STEM Learning Centre recently paid a visit to Trinity. Ms Taylor was interested in visiting our school to observe good practise in delivering KS3 Engineering. The Year 8 students involved with the lesson were extremely motivated and keen to offer Ms Taylor an insight into the activities they complete during the 12 week engineering project from programming robots to 3D printing gear shaped key-rings and learning about Industry 4.0....the robots are coming!”

Here are some photos from the visit, including an example of the 3D printing!

Bank Holiday

Monday, 7th May, 2018, is a bank holiday and the school will be closed. School will resume as normal for all students on Tuesday, 8th May, 2018. We hope everyone enjoys the long weekend!

Whitworth Art Gallery

One of the many benefits of Trinity is its location in the heart of the city. This means that we are extremely close to a range of the very best museums and galleries in the country. Some of our Year 10 students recently had the opportunity to visit the Whitworth Art Gallery and spent a morning attending a workshop that focused on creativity, art and wellbeing.

Art Exhibition

A date for your diary! Our annual Art Exhibition will take place next week; Thursday, 10th May, at 7.30pm. This is an excellent opportunity to come and see some of the incredible work of our GCSE art students - we hope you can make it!

And finally...

.....congratulations to our Under 14 girls' basketball team who have been crowned Manchester champions! The team beat Abraham Moss with a final score of 23 - 19. We are very proud of the team!
