SCHOOL AIM

VOLUME 42, No 38

"To provide a Christian environment in which young people are safe, secure, cared for and happy, and are able to develop into articulate, confident and well-qualified citizens of the world."

Y11 Prom Night

Deputy Headteacher, Mr Cann: "On Wednesday 24th June, our Year 11 students celebrated the end of their examination period in style at their prom. As always, students dressed to impress as they arrived at Hotel Football, and for the first time ever, we even had someone arrive in an ice-cream van!

The evening provided a wonderful opportunity for students to celebrate their achievements and enjoy a memorable evening with friends. We wish them all the very best as they enjoy a well-deserved break over the summer and look forward to welcoming them back on Thursday 20th August 2026 for GCSE Results Day."

Year 10 Geography Field Trip

From Head of Geography, Mr Stockley: "At the end of last month, our Year 10 Geographers braved the heatwave to take part in their GCSE Geography field trip. The day began at Media City, where students investigated the impact of urban regeneration on the local area. They then travelled to Daisy Nook Country Park to carry out further fieldwork along the River Medlock.

On what was the hottest day of the year so far, students particularly enjoyed the opportunity to collect data in the river. Throughout the trip, they demonstrated excellent behaviour and enthusiasm, proving to be a credit to both themselves and the school. The valuable data gathered will support their GCSE studies and preparation for next summer's examinations."

KS3 Maths Success

From Assistant Head of Maths, Ms Williams: "Following our Key Stage 3 students' participation in the Junior Maths Kangaroo and Junior Mathematical Olympiad, we are delighted to share some outstanding results.

Samuel in Year 8 achieved the highest score in the North West in the prestigious UK Mathematics Trust Junior Mathematical Olympiad 2026. This is an exceptional accomplishment in a highly competitive national competition highlights his outstanding talent, dedication and problem-solving ability.

Even more impressively, Samuel has been accepted into the Parallel Academy, alongside Rowan and Edwin in Year 7.

All three students successfully completed a rigorous admissions process, including a challenging test and mathematical interview, to secure places on this elite programme designed to nurture and develop young mathematicians."

Industrial Cadets Gold Award

From Head of Engineering, Mr Barnes: "A team of six students from Trinity Sixth Form has been working hard this year on their Wednesday afternoon enrichment project. The project focused on a large-scale civil engineering challenge involving stormwater overflow treatment.

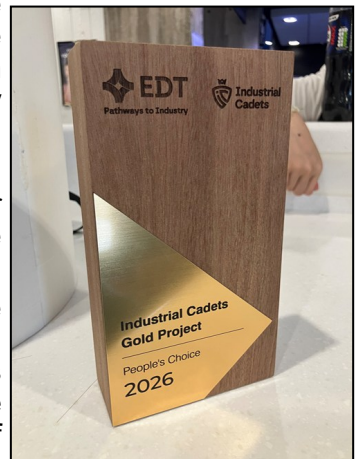

Throughout the year, the students worked closely with professional mentors from the engineering company Mott MacDonald Bentley. In recognition of their successful participation and achievements, all six students were awarded the prestigious Industrial Cadets Gold Award.

The team recently attended a celebration event at the University of Liverpool, where they presented their project to students from other schools as well as professional engineers. We are delighted to share that the students received the People's Choice Award, having been voted the best project on display by fellow participants and industry professionals.

Congratulations to Salma, Esther, Jemma, Yahya, Rehan and Abdelrahman on their outstanding work and commitment throughout the year.

We are pleased that this fantastic project, and the valuable opportunities it provides for our students, is expected to run again next year. Students joining Year 12 in September will have the opportunity to select this programme as one of their enrichment options."
