

**STAFF REGISTER OF BUSINESS INTERESTS  
2018 – 2019**

Governing bodies of maintained schools and academies are required to maintain a register which lists for each member, including the Head, any interest that they, their partner or member of the immediate family may have that might affect their relationship with the school.

Governors and staff should declare any association they have with companies or individuals from whom the school may wish to obtain goods or services or any member of staff who is related in any way. **The reason for the Register is to ensure that individuals responsible for managing and spending public money demonstrate that they do not benefit personally from decisions that they make.**

Staff, also have to declare details of any other educational establishments they work at or are governors and any relationship between themselves and members of school staff, including spouses, partners and relatives. As from 01.09.2015, all schools have a duty to publish interests on their website.
