

How To Upload Work From OneDrive To MS Teams Assignments [On Computer]:

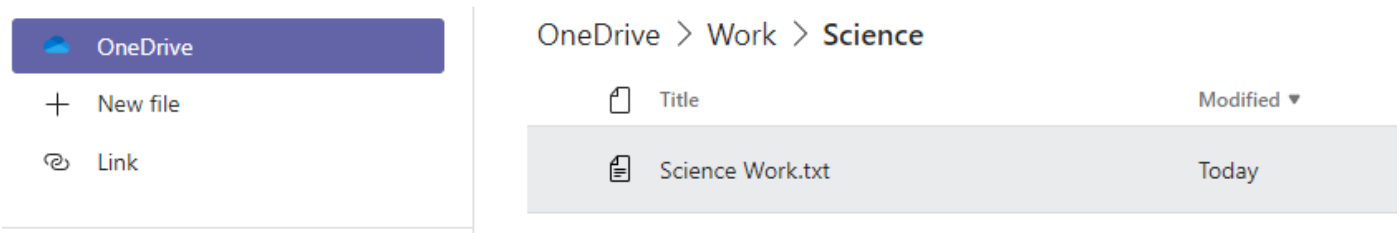

In your MS Teams Assignment you should see an **'Add work'** button under where it says **'My work'**.

My work

 Yr7 Particles - L8 sol task.docx

 Add work

Clicking on this will allow you to search your **OneDrive** for your work file.

The screenshot shows the OneDrive interface. On the left, there is a sidebar with a blue header 'OneDrive' and two options: '+ New file' and 'Link'. The main area shows a breadcrumb path 'OneDrive > Work > Science'. Below the path is a table with columns 'Title' and 'Modified'. A single file is listed: 'Science Work.txt' with a 'Today' modification date.

Title	Modified
Science Work.txt	Today

Select the file you would like to upload and click **'Attach'** at the bottom of the page.

The screenshot shows a file selection dialog with a single file 'Science Work.txt' and a 'Today' modification date. A checkmark is visible to the left of the file name.

<input checked="" type="checkbox"/> Science Work.txt	Today
--	-------

You should then see your work appear on the Assignment page under **'My Work'**
