SCHOOL AIM

“To provide a Christian environment in which young people are safe, secure, cared for and happy, and are able to develop into articulate, confident and well-qualified citizens of the world.”

Your donation supports babies born premature or sick.

Aspiring Medics Fundraising Events

As part of our aspiring medics programme, Year 12 students were asked to raise money for a chosen charity. Our students organised a charity bake sale and a charity car washing service for staff. These fundraising events have supported the Cancer Research campaign, and the charity Bliss, who support premature babies and their families.

Trinity Credit Shop

At Trinity, we aim to encourage our students and to re-enforce positive attitudes, behaviour, and work. One of the ways in which we do this is via the school credit shop. At the shop (which opens every Wednesday break time), students can spend their hard-earned Trinity credits. These credits are earned by students via excellent work and behaviour around school and successful coursework and homework. We also reward students who participate in school events.

Mr Clark (Head of Tiger House) who facilitates the credit system, said "Students can exchange their credits for a variety of items, from sports goods like basketballs, footballs and table-tennis equipment, to stationery and personal hygiene items. We try and add new items each year and every academic year there are items that prove very popular. This year scrunchies have been a huge hit (selling over a hundred) as have table-tennis equipment and novelty animal shaped rubbers. New suggestions are welcome."

If any members of our school community do have any suggestions for new items for next year's shop, please contact Mr Clark.

Lego League Championships

Congratulations to some of our Year 8s who have made it through the regional championship and are now competing in the first National Lego League Championship. The students have worked hard designing and innovating their own robot that must be programmed to complete a range of different tasks, and they have also been researching the impact mobiles phones have on our time. They have designed a brand-new fitness gaming app to encourage us to get out and about and to get our fitness levels up.

Artwork On Display

Some of our fantastic artwork is now on display in the main student foyer. There is still time to also check out our virtual art exhibition to see some more outstanding artwork - www.trinityhighart.com

And finally...

...there has been a lot of media coverage regarding students being sent home to self-isolate. At Trinity, we have been commended by local officials for our 'measured' response to positive cases throughout the pandemic and we have no evidence to suggest that school is a place where the virus is spread. Unfortunately, our request to Public Health Manchester to test close contacts of positive cases on a daily basis, rather than send students home, was refused. We will therefore be following advice from Public Health England and will finish the school year with two more lateral flow tests taking place in school, but none will be conducted in the last week of term in school.

Mr Julian Nicholls
Head
