SCHOOL AIM

“To provide a Christian environment in which young people are safe, secure, cared for and happy, and are able to develop into articulate, confident and well-qualified citizens of the world.”

School of Rock

Our thanks go to everyone who organised, performed, watched or supported our 'sell out' School of Rock performances last week. They really were the most outstanding performances, as witnessed by over 1000 visitors. It was an amazing experience for the audience and students involved. Special mention must go to our music and drama departments and all other staff who worked behind the scenes. We're delighted it has been so well received, and you can see some reviews and photos from the performance inside. Well done to everyone - it was a Trinity triumph!

"I would like to pass on a big thank you to all involved with the production and performance of School of Rock! I attended last night with my boys and we all had a brilliant evening - a highlight of the week! I'm in awe of all the talented students and staff at Trinity. Thank you!"

"Great production! Congratulate the staff...and all the students who were ambassadors for the school...what an achievement. 5 stars!"

Here are some 'behind the scenes' shots, as the cast and crew prepare for their final performance, along with our fantastic team of staff who look at lead on the production!

BAFTA Awards

If you watched the BAFTA awards on Sunday evening, you may have spotted an ex-Trinity student - Wunmi Mosaku - who presented the award for the Best Documentary. Wunmi is no stranger to the BAFTA awards, as she picked up an award herself for Best Supporting Actress for her role in 'Damilola, Our Loved Boy' in 2017.

Intermediate Mathematical Challenge

Our Head of Maths, Mr Scott, tell us more: "Congratulations to Max and Haris in Year 10 who achieved a Silver Certificate in the Intermediate Mathematical Challenge. Haris also achieved the title of "Best In School".

The Intermediate Mathematical Challenge is a 60 minute, multiple choice Challenge. The challenge encourages mathematical reasoning, precision of thought, and fluency in using basic mathematical techniques to solve interesting problems. The problems on the Intermediate Mathematical Challenge are designed to make students think."

And finally...

...earlier this month, we were delighted to welcome Revd Azariah France-Williams from The Church of the Ascension, Hulme, to lead our Eucharist Service.

Mr Julian Nicholls
Head
